

HIMALAYAN AID 2004

P. O. Box 7663, Kathmandu, Nepal

November 17, 2004

To: The Rotary Foundation

Re: Cooperating Organization Participation Letter

To Whom It May Concern:

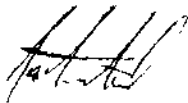

Partners International Foundation and Himalayan Aid are proud to be working with The Rotary Foundation during our 2005 project season. With the Kathmandu Metro chapter of Rotary International as the Primary Host Partner, we look forward to providing an efficient and accountable project that benefits the needy citizens of rural Nepal.

Himalayan Aid will use the funds provided by The Rotary Foundation for the direct purchase of materials to be used for the construction of 50 rural latrines in rural Nepal. These materials will be limited to: concrete, concrete forms, re-bar, ceramic pour-flush pans, corrugated metal roofing, and door hinges and related hardware.

Our Rotary partner in Kathmandu will oversee the purchase and delivery of these materials to their intended villages, and observe and oversee latrine construction. The Kathmandu Rotary will also be directly involved in the management of funds related to this grant. Himalayan Aid is fully willing to cooperate with any financial review of activities connected with this project.

The purchase of materials represents the single greatest expense of our Himalayan Aid project. Along with this, the expenses of transport, construction and replacement of damaged materials will be paid by Himalayan Aid funds that are a part of this Rotary commitment.

Thank you for your generous support.

TO WHOM IT MAY CONCERN

Re: Commitment letter

Dear Rotarians, partners and friends,

Our Rotary Club of Kathmandu Metro, Nepal, represented by the undersigned, is very happy to work together with the Rotary Club of New Albany, USA, and the Non-Governmental Organization 'Himalayan Aid' - to construct and install about 50 units of toilets in the year 2005 in the Kathmandu Valley, Nepal.

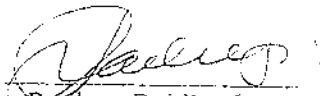

We agree to inspect and oversee project construction and materials procurement as necessary, and to cooperate in any financial audit of this project that the Rotary Foundation deems necessary. We also understand, that no financial commitment from our Rotary Club of Kathmandu Metro is required for this project.

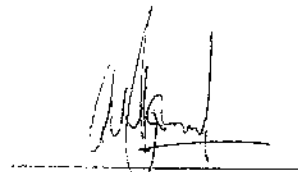

The project funds of USD 4000 will be deposited and made available for reimbursements on a special project account under the responsibility of our Rotary Club of Kathmandu Metro, in accordance with the Rotary International rules. The reimbursements will be paid out on submission of bills on procurement of goods and services. The cost breakdown will be appended after receiving the details from Himalayan Aid.

This project is vital for the health of rural Nepali citizens and, we look forward to future projects of this nature with other Rotary Clubs in the USA, with the Rotary Foundation and with Himalayan Aid.

Together we will work to make this and future projects successful.

Ref. No. :

Date :

Letter of Thanks

The people of Nepal and H.M.G. Ministry of Health wish to thank Partners International Foundation for the kind donation of 500 doses BCG vaccine.

We have very much shortage of BCG in Nepal. The central cold storage unit inventory of BCG for Nepal was 200 vials at the time of your delivery, making your donation very timely and welcome.

We still need many thousand BCG shots every year to meet the need in Nepal. We look forward to future programs of this type from Partners International Foundation

Best wishes,

To Whom It May Concern:

My name is Nancy Rivard and I am the founder and President of Airline Ambassadors. Airline Ambassadors is a non-profit organization recognized by both the U.S. Congress and the United Nations. The organization has over 1,200 members made up of airline personnel, health professionals, businessmen, teachers, students and others. Airline Ambassadors helps children in need at home and abroad. We hand deliver humanitarian aid to clinics and orphanages and escort children to the United States for medical treatment.

I am writing this letter on behalf of Jim Rinaldi. In April of 1999, we scheduled a humanitarian mission to Nepal. Jim Rinaldi was instrumental in assisting the group leader of that trip map out the mission. Jim left for Nepal in October of 1997 to work on other projects for another non profit group. In addition to those tasks, he made time to help with the Airline Ambassadors trip.

Jim first identified and visited villages in the remote Solu Khumbu region of Nepal that were in desperate need of medical and school supplies. He made an inventory of what was needed at the clinics and schools in those villages. Via email, he was in constant contact with the group leader. He provided detailed information as to what supplies should be collected and brought with the group and those which could be purchased once the group arrived in Nepal. He also arranged for the group to visit both the Tibetan Refugee Reception Center which is the clearing house for all those fleeing Tibet and an orphanage.

In addition, he found the trekking agency to support this group of 26 participants that arrived from all over the United States. He then went with the group to trek the supplies to the villages and schools he had earlier identified.

Jim would make an excellent addition to your program.

Sincerely,

Nancy Rivard
President, Airline Ambassadors
