

## Letterhead

Center for Applied Innovation  
and  
Partners International Foundation  
c/o 214 Terrebonne Road  
Yorktown, Virginia 23692

DATE:

To All Those Who See These Presents, Greetings:

The **(Name of Organization, Government Ministry or Office)** fully supports the Partners International Foundation (PIF) executing its Healthy Africa Scenarios Exercise 2008 (HASE 2008) through its Center for Applied Innovation (CAI) . **(Name of Organization, Government Ministry or Office)** would like to participate with the HASE 2008 government, International Organization (IO), Non-Government Organization, Military, and Private Sector partners for the mutual benefit of concept development, experimentation, and curriculum that better define the way ahead in future humanitarian responses in all situations.

Key points:

- The HASE series starting in 2008 and its follow-on events in subsequent years has long-range implications that will positively affect the development of how we must work in the future.
- Encourage all government, non-government and private sector donors to fully resource Partners International Foundation and its program partners to now and in the program's subsequent years. This is an area in which expansion is inevitable and extremely desirable. HASE is already providing immediate return on investment.
- What you feel is important and/or unique about the initiative.
- **WHY IT IS IMPORTANT THIS EFFORT IS RESOURCED BY POTENTIAL DONORES.**
- Why it is important this effort is non-government/non-military led as the coordinators (neutrality)
- Specific comments on the areas you find most appealing and why
- Potential impacts on Africa and its future and what HASE 2008 should produce.
- The initiative represents an opportunity for researcher's from Colleges, Universities, and others to partner with other companies, organizations and government agencies for the mutual benefit of concept development, experimentation, technology, research, and curriculum development.
- **(Name of Organization, Government Ministry or Office)** looks forward to working with Partners International Foundation and its Center for Applied Innovation as well as the other partners on this critical effort and encourages all other potential government, non-government, private sector, and donors to adequately support and resource this effort for 2008 and beyond.

**SUBMITTING THE LETTER: Please FAX a copy of your endorsement to (270) 477-7087 or send it electronically to [partners@partners-international.org](mailto:partners@partners-international.org). Originals can be mailed to the address above.**
